- Clean formula for home use
- Strong enough for industry
- Does not contain Silicone or CFC

Application:

- Anti-seize, Assembly and Dismantle
- General Lubricant

Available Sizes & Product Codes:

- 200ml Aerosol (Code: 1725)
- 415ml Aerosol (Code: 1851)
- 500ml Squeeze Bottle pack 12 per pack (Code: 1849)
- 5 Litre Can (Code: 1670)

Food Grade PTFE Dry Film Lubricant H1

Key Features:

- H1 Food Grade certified by InS #1795392
- Temperature rated between -40°C to +260°C dry film only
- Dry film lubricant
- Minimizes friction and wear
- White in colour and clean in use
- Silicone Free
- Non Adhesive
- Non Toxic

Application:

- Food Grade Products
- Anti-seize, Assembly and Dismantle
- Bearing Lubricant
- General Lubricant
- PTFE Lubricant

Available Sizes & Product Code:

- 500ml Aerosol (Code: 1962)

RP-90 Rapid Penetrating Oil

Key Features:

- Excellent penetrating power
- Fast acting releasing capability
- Protects against rust and corrosion
- Reduces friction and wear
- 30% less dense than water which results in excellent penetrating power and releasing capability

Application:

- Anti-seize, Assembly and Dismantle
- General Lubricant
- Release Fluids
- Plumbing Products

Available Sizes & Product Code:

- 500ml Aerosol (Code: 1822)

RX-90 Red Oxide Anti Rust Primer Spray

Key Features:

- Guards against rust
- Effective on bare metal or lightly rusted metal surfaces
- Use as an undercoat with most popular paints
- Protective basecoat
- Low topcoat absorption
- Fast drying formula

Application:

- Anti-rust Paint

Available Sizes & Product Code:

- 500ml Aerosol (Code: 1855)
